

The background of the advertisement is a photograph of a person wearing a patterned garment, holding a Carestream mobile DR detector. The image is overlaid with a warm orange tint. The Carestream logo is in the top right, and the main headline is in the center. A red box on the left contains the text 'A GLOBAL LEADER IN MEDICAL IMAGING.'.

Carestream

A GLOBAL  
LEADER IN  
MEDICAL  
IMAGING.

**Affordable.  
Scalable.  
Versatile.**

A family of DR solutions for every budget.

A woman with long dark hair is seen from the side, wearing a light-colored long-sleeved shirt. She is holding a black marker and drawing a line graph on a whiteboard. A man with a beard, wearing a dark shirt, stands behind her, looking at the whiteboard. The whiteboard has a line graph with several data points and a jagged line. The text "Chance of exact result" is written on the whiteboard. The background is a warm, orange-toned wall.

Carestream Health is a global corporation with more than 100 years of leadership in healthcare imaging. We are over 5,000 professionals strong – all striving to increase the quality of care for patients around the world.

As an industry thought-leader, we can offer you a smarter way forward to the future. We're tuned in to the trends and challenges in the field. We respond with timely, game-changing healthcare solutions. All are backed by unsurpassed service and support.

Carestream is committed to helping our customers remain at the forefront of medical imaging – achieving higher productivity, effective cost control and outstanding patient care.

## THINK SHARING. THINK X-FACTOR.

Meet the remarkable X-Factor platform. It lets you share the same user interface and wireless detector seamlessly across our entire line-up of DRX products – and, slide right into existing equipment as well. This makes it easy and affordable for you to convert, replace or expand your current systems.

### DRX-1 SYSTEM

An efficient, economical way to transition to digital radiography. Its wireless DR detector works with existing X-ray equipment throughout the enterprise.

### DRX DETECTORS

The **DRX Core Detector** provides a highly affordable way to say goodbye to film or CR, and hello to the benefits of full digital.

The **DRX Plus Detector**, with X-Factor shareability, is thinner, lighter and offers a superb water-resistance rating for greater reliability.

The **DRX 2530C Detector** delivers X-Factor shareability in a smaller format – ideal for pediatric and other small-subject imaging.

# Continuing Evolution.

## FULL-ROOM SOLUTIONS

Our X-ray Rooms offer modular, configurable designs, ensuring there's precisely the right solution for your space, workflow and budget. Scalability means that they can grow with you. All rooms can be driven by our wireless DRX Detectors – compatible with both table and wallstand buckys.

### DRX-EVOLUTION PLUS

Our flagship DR Room is a versatile system that performs a wide variety of general radiographic exams – with remarkable convenience, patient comfort and pristine image quality. You can select a fully automated, partially automated or manual configuration.

### DRX-ASCEND

The flexible DRX-Ascend delivers high-end features at an affordable price. You can configure tubestands, wallstands, table and accessories to meet your facility's specific needs for space, exam types and budget.

### DRX-EXCEL PLUS SYSTEM

The DRX-Excel System delivers affordable versatility for both hospitals and imaging centers. It offers you capabilities for general radiography and fluoroscopy exams in a single system – at a very attractive price. It also supports accelerated workflow, high-resolution images and easy, convenient operation.

### ONSIGHT 3D EXTREMITY SYSTEM

The OnSight System is designed to provide pristine, 3D orthopedic images right on site – with an easy-open bore and patient access to allow weight-bearing studies not possible with traditional CT. Plus, site and install requirements are low to enable a fast, affordable, convenient imaging process for timely diagnosis and commencement of treatment.

# Moving Productivity.

## MOBILE IMAGING SOLUTIONS

Look to Carestream and the X-Factor for the mobile unit that's the ideal match for your requirements – from models with industry-leading performance to those with impressive economy. Field-hardy systems to convenient DR upgrade solutions. With all of them offering X-Factor Detector sharing. Whatever you need, Carestream offers superb imaging performance on the move.

### DRX-REVOLUTION

The DRX-Revolution is a breakthrough innovation, allowing wireless DR imaging to go wherever it's needed. It provides high image quality and exceptional maneuverability, while its low-profile and collapsible column let technologists see where they're going in busy hallways.

### DRX-REVOLUTION NANO

We've leveraged the advanced features and digital integration of our flagship DRX-Revolution, scaled down to create the small and compact DRX-Revolution Nano Mobile. It delivers high performance and full DR imaging, at a remarkably affordable price.

### DRX MOBILE UPGRADE SOLUTIONS

These solutions allow fast, easy upgrades of existing mobile equipment to the power and convenience of wireless digital imaging.

The DRX-Mobile Retrofit Kit converts mobile units from GE or Shimadzu to wireless DR operation.

### DRX-TRANSPORTABLE/FIELD PORTABLE

The DRX Transportable/Field Portable is a self-contained DR imaging solution ideal for military, veterinary or civic-response field use. The system includes a wireless detector, electronics and a tablet PC – all packed in a rugged, water- and dust-resistant carrying case.

### DRX-TRANSPORTABLE LITE

The Transportable Lite allows a rapid upgrade of existing X-ray rooms and mobile equipment to the power, convenience and flexibility of digital imaging through use of a wireless tablet and a DRX Detector. The tablet displays diagnostic images as they are acquired – eliminating the need to interface with a generator.

A GLOBAL
