

JOIN US AT RSNA FOR THE PURSUIT OF MORE WORKSHOPS

Be there when great minds gather to discuss the next generation of Imaging IT. This special Vue user event is an opportunity to ask your questions and share your thoughts and experiences. Meet VIBE user group president Jim Travitz to discuss the future of the online community. Learn more about how Vue RIS can be implemented for Meaningful Use requirements. Discover how Vue PACS display protocols are designed. All this and more is up for discussion.

To take part in this intimate yet informative forum, just sign up for a workshop or schedule your own one-on-one 30-minute session with an Application Specialist or a Solutions Architect.

Hope to see you there!

Each session is limited to five attendees. Please contact your local sales representative or go to www.carestream.com/rsna to request your appointment online.
