

## Recycling DRYVIEW Film Cartridges is as easy as 1, 2, 3!

Thank you for participating in the CARESTREAM DRYVIEW film cartridge recycling program. By returning empty cartridges, you're helping the environment and reducing waste!

**Replace your empty film cartridges in their original cartons.** Return as few or as many as you like each time. You can tape up to 3 cartons together and return them with a single label.

**Return your package via UPS one of the following four ways:**

- Take your package to your internal delivery and receiving location.
- Give your package to any UPS Driver during any delivery at your location.
- Contact UPS at 1-800-823-7459 and ask to arrange an ARS pickup. You will be asked to provide a tracking number which is located on any ARS label.
- Drop your package off at the nearest UPS Customer Counter or authorized shipping outlet (call 1-800-823-7459 for locations).

**Apply a pre-paid, bar-coded UPS ARS shipping label to each package.** These labels and return service are no charge.

To order more shipping labels, or if you have questions about this program, contact Carestream at 1-800-677-9933.

A SIMPLE  
WAY TO  
HELP US  
PROTECT THE  
ENVIRONMENT.
