DRX-Compass X-ray System

Efficiency. Expandability. Ease of use.

Navigate New Directions in Performance and Flexibility.

SMART IMAGING SOLUTIONS

Versatility Meets Value.

Staying on course during the journey to the future of imaging can be difficult. Many facilities today, including yours, would like to step up to the benefits of a full X-ray suite with advanced features. And naturally, you want the versatility, functionality and quality that you can rely on through the years and growth of your facility. But perhaps you've been waiting for a clear direction on which path to choose.

It's here. Just as a compass always points North, the CARESTREAM DRX-Compass X-ray System points the way to a successful future. It has just the right selection of features and options to take your workflow to a new level of efficiency to meet your most pressing needs now, and provide a clear expansion pathway for the future.

Whatever your needs, the DRX-Compass will keep you on the right road to superb performance and a solution that will grow along with you.

Advantages at a Glance

- Exceptional image quality to support accurate diagnoses
- Scalable and upgradeable technology to help eliminate obsolescence
- Wide selection of components to configure the ideal system for your needs
- Our advanced Smart Features automate tasks and workflow steps to streamline processes, support radiographer productivity, save time and enhance patient care.

We Listened to Your Needs – and Responded.

When our customers speak, we *listen*. So when we heard customers around the world say they needed a fully featured room that's both versatile and scalable, we got to work.

The DRX-Compass is the result.

Navigate the All New DRX-Compass X-ray System.

Experience versatility, functionality and superb image quality.

Image Preview display on the tube head allows technologists to remain with patient during exam.

Color-coded buttons on the tube-head handle match colors on the overhead rails so technologists know instantly which button controls which movement.

Optional Wallstand tilts -20/90 degrees, for easy patient positioning during cross-table exams.

Optional Auto-Centering optimizes ease of use and speeds workflow.

Additional Features

Swipe-n-Go Login for fast and secure access, no keyboard required.

Common User Interface for all Carestream DR products reduces training time and move with ease between Carestream systems.

Optional Features

SmartGrid Image Processing supports pristine image quality at a lower dose without the use of a traditional grid.

Auto-LLI facilitates easy acquisition of long-length imaging.

Auto Collimation supports precise auto-positioning for ease of use and accelerated exam times.

Everybody benefits from the advanced features the DRX-Compass has to offer.

Patient

- DR technology increases the speed at which an exam can be done, aiding in a quicker diagnosis.

Radiographer

- The system is exceptionally easy to use.
- Optional features are available to improve users' workflows.

Radiologist

- Exceptional image quality supports accurate diagnosis.
- Configure the system to meet your facility's needs and exam types.

Rad Admin

- Return on investment – this fully featured X-ray room is yours at a practical price.
- Choose the right detector your facility's needs.
- It's scalable, flexible and reliable.
- ImageView Software provides cybersecurity improvements.

Physicist/ Bio Engin.

- Lower dose is available with SmartGrid Imaging Processing and cesium detector options.

NO MATTER WHICH ROAD YOU'RE ON,
WE'LL GET YOU WHERE
YOU NEED TO GO.

SMART IMAGING SOLUTIONS

The Fastest Route to a Successful Imaging Future.

As you travel to the future of imaging, what's your next step? Perhaps you need to accelerate your X-ray workflow. Or add a new imaging solution to your facility to provide better patient care.

Wherever you're headed, we have the smart solutions you need: Full-digital imaging rooms and leading-edge mobile units. Wireless, shareable detectors and CR-to-DR retrofit kits. Affordable CR systems. Advanced digital imagers and our Managed Print Solutions service. And as always, the gold-standard in X-ray film technology.

Start Mapping Your Route Today.

From small clinics, urgent care facilities and specialty practices to large hospitals and imaging centers, every facility will find a Carestream solution to meet the most specific needs. Visit carestream.com and start your journey to greater productivity and a higher standard of patient care.

Carestream also offers Non-Destructive Testing solutions to help ensure quality and safety in the aerospace, petrochemical and other industries, as well as Contract Manufacturing to bring innovative coated products to market.

A Community of Service and Support.

For dependable service, look to our Customer Success Network. We work continuously to improve your imaging performance, help you to innovate as needs change, and make the most of your budget and resources. Carestream's Customer Success Network surrounds you with a dynamic team of experts, with a Single Point of Entry for easy, customized access to the right people in every situation. You and your patients will benefit from the expertise and best practices only Carestream can deliver.

Eclipse: Harness the Power of Decades of Innovation.

Carestream's Eclipse is the engine behind our innovative imaging software. It uses AI technology and proprietary algorithms to significantly increase the value of the entire imaging chain, from capture to diagnosis.
