Vita Flex CR System

Speed. Productivity. Quality.

Upgrade Your Practice from Film to Digital.

SMART IMAGING SOLUTIONS

An Imaging Solution with an Impressive Pedigree.

Switching from film to digital can seem like a big step for a small practice. You might be concerned about the transition being disruptive to your office, or about the time required to master a new technology. You may also be unsure that a digital system will provide all of the vet-specific features you need.

Here's the answer: the CARESTREAM Vita Flex CR System combined with CARESTREAM Image Suite software. This system is custom-designed for veterinary applications. It's fast and easy to use. It provides superb image quality and boosts productivity. All at an affordable price. So now, you can go digital with confidence.

Advantages at a Glance

- Eliminates the need for ongoing purchases of film and the use of harsh chemicals.
- Going digital saves hours compared to time-consuming film-based radiography.
- Unique space-saving design allows unit to be set up vertically or horizontally.
- Compact, lightweight and affordable – ideal for smaller facilities.
- Software with custom-designed veterinary interface.

FlexFit Means There Are Two Ways to Save Space.

Vita Flex's benefits for small offices don't end with its compact footprint. You can find the fit that's best for you. Vita Flex fits on a tabletop, desktop, sitting on the floor or in the back of a van. You can position it in a traditional horizontal configuration, or set it up vertically if that's a better fit for your space.

Now that's flexibility.

A New Breed of Veterinary Imaging.

Image Suite: Optimized for Veterinary Applications.

Many digital-imaging systems marketed to vets come with a generic, human-based clinical interface that requires you to adapt. By contrast, Image Suite software adapts to the way you work – with a custom-designed veterinary interface.

Our order-entry screens have the fields you need, for selection of breed, species and more. You can also input unique identifiers like tattoos and chip IDs. Veterinary-specific reference images are provided to support accurate positioning, while sample veterinary X-rays provide guides for enhanced image quality. Our customized animal-image processing database fine-tunes processing parameters for specific species, breeds, body parts and views. Specialized veterinary measurement tools include:

- Hip Dysplasia Measurement Tool.
- VD Thorax Measurement Tool.
- Vertebral Scale Measurement Tool.
- Tibial Tuberoses Advancement Measurement Tool.
- Tibial Plateau Leveling Osteotomy Measurement Tool.
- Laminitis Measurement Tool.

Affordable Purchase Price
- Go digital without breaking the bank.

Streamlined Operations
- Say good-bye to ongoing purchase of consumables.
- Forget the need to handle harsh chemicals.
- No more for film to process.

Small and Lightweight
- Save valuable space with Vita Flex's compact footprint.
- Configure it vertically or horizontally to fit the tightest spaces.
- Transport easily for mobile imaging.

High-Quality Images
- Upgrade to superb digital images.
- Enjoy easy-to-use Image Suite acquisition software.
- Utilize powerful analysis tools in the software to improve diagnostics.

Speedy Performance
- View high-quality images in just minutes.
- Choose your throughput rate (30, 45 or 60 PPH).

Experience the Versatility
- Select from multiple cassette sizes; including Dental Vet Cassettes.
- Handle all major exam types with confidence.
- Expand your exam capabilities with the Long-Length Imaging option.

NO MATTER WHICH ROAD YOU'RE ON,

WE'LL GET YOU WHERE YOU NEED TO GO.

SMART IMAGING SOLUTIONS

Save Time. Save Money.

Innovative Options for Installation and Service.

Vita Flex introduces a progressive new approach to installation and service. Naturally, you can opt to have both handled by one of our expert technical-support people. But if you're even a little bit handy, you can meet these needs on your own – and in the process save yourself both hours and dollars. No tools or heavy technical expertise needed!

SELF-INSTALL OPTION

- Set up and start scanning immediately with easy self-install.
- Go from carton to first image in less than 90 minutes.
- Or, choose full-service installation from a certified technician.

IDEAL FOR MOBILE APPLICATIONS

Need to take Vita Flex on the road? Its small size and light weight make it a breeze to transport and use in the field.

SELF-SERVICE OPTION

- Fast self-repair maximizes uptime and budget.
- Fix it yourself with three easy, field-replaceable units.
- Or, call for full-service from a certified technician.
